

UK CARBON CODE OF CONDUCT (UKCCC)

Vision

To reverse climate change, biodiversity loss and remove atmospheric carbon at scale through the restoration of natural systems

Mission

To ensure carbon removal projects and credits are of the highest integrity standards and provide environmental and social good through nature restoration

UKCCC serves...

Farmers • Landowners • Estates
• Project Developers • Companies •
Local and National Government •
Communities • The Planet

HIGH INTEGRITY CARBON CREDITS

NATURE-BASED SOLUTIONS

 Soil Carbon Sequestration

 Regenerative Agriculture

 Habitat Restoration

 Agroforestry

 Community Engagement

 Project Access & Visits

UKCCC provides...

Measurement • Reporting • Monitoring •
Verification • Certification • Monetisation
• Transparent Transaction Processing •
Training • Licensing

SCIENCE | RESILIENCE | CERTAINTY

A central standard & robust set of protocols

- ▶ Assured Additionality
- ▶ Assured Permanence
- ▶ Avoidance of Leakage
- ▶ Avoidance of Negative Outcomes

+ **Holistic**
Whole Operation, Whole Farm

+ **Biodiversity & Carbon**
Net Zero First Certified

Partners & Clients include

UKCCC aligns with...

- ICVCM Core Carbon Principles
- Science-Based Targets Initiative (SBTi)
- Greenhouse Gas (GHG) Protocols
- TNFD Recommendations & Guidance
- Biodiversity Net Gain (BNG) Regulations
- Oxford Principles for Net Zero Aligned Carbon Offsetting
- UN Sustainable Development Goals
- US Policy & Principles for Voluntary Carbon Markets
